

NNM securities with an average daily non-block volume of 3,000 shares or more a day, a bid price less than or equal to \$100, and three or more market makers are subject to a minimum quotation size requirement of 1,000 shares;²

NNM securities with an average daily non-block volume of 1,000 shares or more a day, a bid price less than or equal to \$150, and two or more market makers are subject to a minimum quotation size requirement of 500 shares and a maximum SOES order size of 500 shares; and

NNM securities with an average daily non-block volume of less than 1,000 shares a day, a bid price less than or equal to \$250, and less than two market makers are subject to a minimum quotation size requirement of 200 shares and a maximum SOES order size of 200 shares.

Pursuant to the application of this classification criteria, 900 NNM securities will be reclassified effective November 13, 1995. These 900 NNM securities are set out in the NASD's Notice To Members 95-91 (October, 1995).

In ranking NNM securities pursuant to the established classification criteria, Nasdaq followed the changes dictated by the criteria with two exceptions. First, an issue was not moved more than one tier size level. For example, if an issue was previously categorized in the 1,000-share tier size, it would not be permitted to move to the 200-share tier even if the reclassification criteria showed that such a move was warranted. In adopting this policy, Nasdaq was attempting to maintain adequate public investor access to the market for issues in which the tier size level decreased and help ensure the ongoing participation of market makers in SOES for issues in which the tier size level increased. Second, for twenty securities priced below \$1 where the reranking called for a reduction in tier size, Nasdaq determined not to recommend a decline in tier size.³

The NASD believes that the proposed rule change is consistent with Section 15A(b)(6) of the Act. Section 15A(b)(6) requires, among other things, that the rules of the NASD governing the operation of The Nasdaq Stock Market be designed to foster cooperation and coordination with persons engaged in regulating, clearing, settling, processing information with respect to, and

facilitating transactions in securities, and to remove impediments to and perfect the mechanism of a free and open market. The NASD believes that the reassignment of NNM securities within SOES tier size levels and minimum quotation size levels will further these ends by providing an efficient mechanism for small, retail investors to execute their orders on Nasdaq and providing investors with the assurance that they can effect trades up to a certain size at the quotations displayed on Nasdaq.

(B) Self-Regulatory Organization's Statement on Burden on Competition

The NASD believes that the proposed rule change will not result in any burden on competition that is not necessary or appropriate in furtherance of the purposes of the Act.

(C) Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received from Members, Participants, or Others

Written comments were neither solicited nor received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

The proposed rule change has become effective immediately pursuant to Section 19(b)(3)(A)(i) of the Act and subparagraph (e) of Rule 19b-4 thereunder because the reranking of NNM securities into appropriate SOES tier sizes was done pursuant to the NASD's stated policy and practice with respect to the administration and enforcement of two existing NASD rules. Further, in the SOES Tier Size Order, the Commission requested that the NASD provide this information as an interpretation of an existing NASD rule under Section 19(b)(3)(A) of the Act. At any time within 60 days of the filing of such proposed rule change, the Commission may summarily abrogate such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Securities Exchange Act of 1934.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views, and arguments concerning the foregoing. Persons making written submissions should file six copies thereof with the Secretary, Securities and Exchange Commission, 450 Fifth Street, N.W., Washington, D.C. 20549. Copies of the submission, all subsequent

amendments, all written statements with respect to the proposed rule change that are filed with the Commission, and all written communications relating to the proposed rule change between the Commission and any person, other than those that may be withheld from the public in accordance with the provisions of 5 U.S.C. 552, will be available for inspection and copying in the Commission's Public Reference Room. Copies of such filing will also be available for inspection and copying at the principal office of the NASD.
